Matthew Dias

github.com/matthewdias — matthew.d.dias@gmail.com — in/matthewdias

Summary

- Experienced with C, C++, Java, Python, BASH, TCL and VHDL
- Experience working with oscilloscopes, function generators, multimeters and VNAs

Work Experience

Evertz Microsystems *Markham, ON*
Hardware Designer May – Sept '17

- Used OpenOCD to develop an application used to store data in CPLD flash memory
- Created a FUSE filesystem interface in C for the storage application
- VHDL based FPGA development, on-chip debugging and firmware configuration to allow for the transition from an Intel to XPliant ethernet switch

Eaton *Mississauga, ON*
Engineering Intern Sept – Dec '16

- Developed VBA scripts to collect project management metrics from Basecamp
- Developed a library of commands for AutoCAD using LISP to automate the process of preparing drawing exchange files for database import, saving 3 hours per file
- Managed lighting control device databases using PostgreSQL queries

Smith + Andersen *Toronto, ON*
Junior Electrical Designer Jan – Apr '16

- Drafted AutoCAD drawings of power distribution and lightng systems, calculated electrical loads and sourced equipment for large infrastructure projects

Extracurricular

UW Robotics Team

- Designed the schematics and PCB layout of various boards for the Mars rover
- Design, LTSpice simulation and testing of voltage regulators and a power supply selector system for the battery management board

Research

- Currently developing a concussion diagnostic tool on Android by using OpenCV to detect a users hands and track disparities in their motion during a simple motor test

Projects

Teamlines *http://github.com/Beezlie/Teamlines*

- Developed an Android app to display up-to-date Twitter timelines of professional sport teams
- Used Beautiful Soup and Tweepy Python libraries to scrape sport team rosters and player information from Wikipedia and Twitter

Retro Games *http://github.com/Beezlie/RetroGames*

- Designed games similar to Space Invaders and Flappy Bird for the TM4C123G microcontroller

Education

University of Waterloo Sept '14 – Apr '19 *(expected)*
Honours Bachelor of Applied Science in Electrical Engineering *GPA 3.5*
